When evaluating the credibility of a news article shared on social media, which step should you prioritize first?

Multiple choice

- Check the comments to see if other people agree with it.
- Look for the same story reported by established, independent news organizations. ✓
- Share it immediately to spread awareness.
- Read only the headline, as it contains the most accurate summary.
- Add option or add "Other"

Answer key (5 points)

Required

What does activating Two-Factor Authentication (2FA) or Multi-Factor Authentication (MFA) do for your online accounts? *

- It encrypts all of your outgoing emails

The respondent's email (**skyadityaanand@gmail.com**) was recorded on submission of this form.

✓ Which of the following is the strongest indicator that an email might be a phishing attempt? *5/5

- ○ It is sent during non-business hours.
- ◉ It contains a generic greeting (e.g., "Dear Customer") and creates a sudden sense of urgency to click a link. ✓
- ○ It includes a colorful logo from a well-known bank.
- ○ It includes an option to unsubscribe from the mailing list.

Briefly explain why it is considered poor digital hygiene to use the exact same password across multiple online accounts. *

If one website experiences a data breach and your password is leaked, hackers can use those same credentials to easily access your other accounts (email, banking, social media).

Define the term "digital footprint" in your own words and provide one example of how it could potentially impact your future career or academic opportunities. *

A digital footprint is the trail of data a person leaves behind while using the internet (social media posts, comments, search history). It can impact the future because employers or universities often search candidates online, and inappropriate public posts can cost someone a job or admission.
